

KEGG_2021_Human

Enriched terms

Natural killer cell mediated cytotoxicit...
Leukocyte transendothelial migration
Antigen processing and presentation
Platelet activation
Human cytomegalovirus infection
Regulation of actin cytoskeleton
Osteoclast differentiation
Chemokine signaling pathway
Fc epsilon RI signaling pathway
Rap1 signaling pathway
Fc gamma R-mediated phagocytosis
Adherens junction
Shigellosis
Focal adhesion
Pathways in cancer
Pathogenic Escherichia coli infection
Bacterial invasion of epithelial cells
Yersinia infection
Phospholipase D signaling pathway
Lipid and atherosclerosis
